

IMPORTANT INFORMATION ABOUT ELECTRICAL SYSTEM UPGRADES IN YOUR NEIGHBORHOOD

NOTICE OF CONSTRUCTION

Southern California Edison West of Devers (WOD) Upgrade Project Activity

The WOD Project will upgrade existing transmission lines between the Devers, El Casco, San Bernardino, and Vista substations to increase system transfer capacity from 1,600 megawatts (MW) to 4,800 MW. Upon completion, the WOD Upgrade Project will bring renewable and conventional generation to the power grid and help meet California's renewable energy goals.

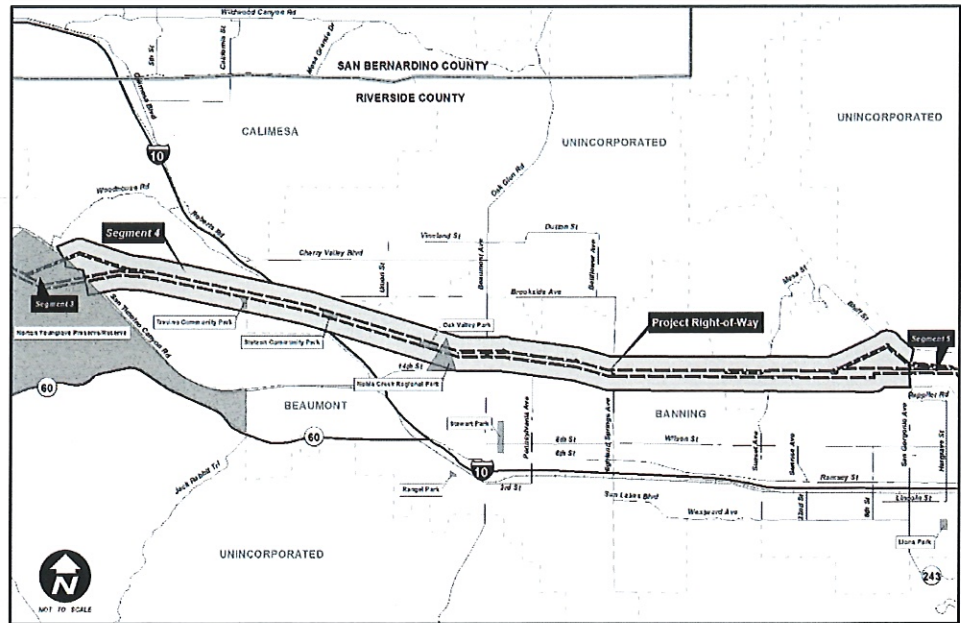

Transmission and Telecommunication Improvements: Mid-June 2019 – December 2022 – Most work activities will occur Monday through Saturday from 6:00 a.m. to 7:00 p.m. Occasionally, as project conditions require, work may occur on Sundays and overnight.

Locations Scheduled for Transmission and Telecommunications Improvements in the cities of Calimesa, Beaumont, Banning and unincorporated Riverside County: Mid-June 2019 through December 2022 Within the Project Right-of-Way, from El Casco Substation, South of San Timoteo Canyon Road east towards San Gorgonio Avenue.

Scheduled Activities:

- Site preparation
- Removal and replacement of overhead lines
- Modification, installation and removal of poles and towers
- Foundation installation
- Counterpoise installation
- Shoo Fly installation and removal
- Helicopter operations
- Wire Stringing
- Transmission wire and optical ground wire pulling and splicing
- Restoration activities

Impacts to Recreation Areas: for your safety construction may limit access to trails within the project right-of-way, please comply with signage and directions given by construction personnel

Every effort will be made to reduce the amount of noise generated by activities related to construction. SCE understands that construction may be inconvenient to residents, businesses, and visitors. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.
